Ovation

**SOME PEOPLE GET ALL THE ATTENTION.
WE THOUGHT WE WOULD DO THE SAME.**

Big and bold, the new Ovation wall-mounted digital jukebox makes its presence felt in any location. This wallbox is no wallflower. Its 19-inch LCD touch-screen monitor -- the industry's largest -- commands attention with a viewable area 60 percent larger than the typical screen display. It shares the magnetic good looks of the Allegro floor model. The Ovation has advanced electronic components including the fanless computer and fanless digital amp for superior performance and operating reliability. As with all TouchTunes jukeboxes, you get the dual options of broadband and dial-up connectivity. This is one wallbox that's sure to draw a crowd.
